indicate harder exercises or parts of exercises with an exclamation point The hardest exercises have a double exclamation point Some of the exercises or parts are marked solution to another exercise A If certain parts have solutions then you should expect the corresponding parts of B to have solutions as well Gradiance OnLine

Formal Languages and Automata Theory Homework # 3

Formal Languages and Automata Theory Homework # 3 For each of the following, give a DFA that accepts the specified language Exercises to be handed in from Part I include 1,3 and 28

Introduction to Theory of Computation

Purpose of the Theory of Computation: Develop formal mathematical models of computation that reflect real-world computers This field of research was started by mathematicians and logicians in the 1930's, when they were trying to understand the meaning of a "computation" A central question asked was whether all mathematical problems can be

Introduction to Languages and the Theory of Computation

Introduction to languages and the theory of computation / John C Martin—4th ed p cm These are problems for which a careful solution is likely to be less routine are exercises representative of a general class of problems; in other cases the

Automata Theory - Homework II (Solutions)

Lemma 12 If $w \in L$, then the string w' obtained by dropping the first and last symbols of w , also belongs to L Proof: It is a straightforward observation

(Use contradiction!) Theorem 11 If $S \Rightarrow^* \text{lm } w$, then this derivation is unique Proof: We use induction on the length of w ; the induction will be on the set of even numbers and not on the set of
